

SPECIAL MEETING OF STANLEY VILLAGE COUNCIL

APRIL 23, 1998

Stanley Village Council gathered in the office before going over to the Cenotaph to measure and plan for renovations. Councillor Mark Foreman and Mayor Ross recorded the measurements and proposed plans and will arrange to obtain an estimate for work to be completed including costs of cement, etc.

Council then came back to office and assisted Clerk with the preparation of a form for funding for this project.

Mayor Ross presented a letter which listed the students involved in the damages done to our Park last year, and the courts have recommended that they all perform hours of community service.

Council then agreed that we have the students work May 23rd & May 24th as we are sponsoring a Dumpster for use by surrounding residents to dispose of unusual garbage. The students will be asked to remain at the site for both days and assist with loading and unloading the garbage as it is brought in.

The next Regular Council Meeting is planned for May 21, 1998. Council adjourned at approximately 9:10 p.m.
